Beyond the Bond "Future" Road Infrastructure Cost Analysis

Strategy	Miles of	Cost
	Road	
Road Reconstruction	14.364	\$ 11,419,209.46
Mill and Fill	3.86	\$ 746,774.40
Overlay	31	\$ 3,695,239.20
Estimated total		\$ 15,861,223.06

Road Infrastructure Strategic Initiatives

- 1. It appears the Towns Financial Software upgrade will improve year end bookkeeping issues.
- 2. The road software evaluation appears to be closer to \$9,000 per year.
- 3. Create a Capital Reserve or expendable trust dedicated for FEMA events and maintain a \$200,000 balance.
- 4. Work with the Community Development Director and adopt updated road specifications that protect needs and taxpayers

Road Infrastructure Recommendations

DPW recommends

1. Increasing the Road Maintenance repair line (01-4312-10-2679) by a minimum of \$200,000 each of the next **five** years shifting from the Bedford model to the Goffstown model.

Increasing above in FY-16 from \$740,406 to \$940,406, which is a 27% line item budget increase Increasing above in FY-17 from \$740,406 to \$1,140,406, which is a 54% line item budget increase. Increasing above in FY-18 from \$740,406 to \$1,340,406, which is a 81% line item budget increase. Increasing above in FY-19 from \$740,406 to \$1,540,406, which is a 108% line item budget increase. Increasing above in FY-20 from \$740,406 to \$1,740,406, which is a 135% line item budget increase.

- 2. In FY- 17 purchasing Road Evaluation software and first year reevaluation \$9,000
- 3. In FY- 18 create a Capital Reserve of expendable trust dedicated to FEMA events and maintain a \$200,000 balance.

Town of Amherst DPW Strategic Update

Bridges

Infrastructure Update Bridges

The Manchester Road Bridge has been accelerated to the FY-15 budget cycle

New Boston Road Bridge over Beaver Brook # 109/090 scheduled for replacement in 2019 now only needs a \$55,000 repair. *Repair work is not covered under the NHDOT Bridge Aid Program.* The 2011 warrant article states to "reconstruct" three bridges. A legal opinion must be sought prior to accessing this funding mechanism for engineering and repair.

<u>Horace Greeley Road Bridge</u> over Pulpit Brook # 060/158 is scheduled for replacement in 2020. Engineering design and replacement plans are within two months of completion. Amherst's 20% would be covered by the 2011 warrant article.

Amherst submitted to NH Department of Transportation (NHDOT) in July 2013, two additional bridges for state bridge aid. This action places four of Amherst's seven corrugated steel bridges under the NHDOT bridge replacement program.

Location	Į.	State designation	total est.	town portion
Mont Vernon Road ove	r Ceasars Brook	#112/071	\$ 930,000	\$186,000
• Thornton Ferry Road I	over Beaver Brook	#145/106	\$1,100,000	\$220,000

The two above are not yet red listed, are in a holding pattern ("awaiting town action to raise funds"), and will not be assigned a replacement year, until the town can submit documented proof it has earmarked its portion of the estimated replacement cost. We have \$20,000 in the Bridge Replacement Capital Reserve and must raise an additional \$386,000.

Infrastructure Update Bridges

- Initial Strategic Goal and Initiative
 - The Goal and Initiative for the Manchester Road Bridge was realized when plans were completed, approved, and NH Department of Transportation (NHDOT) accelerated construction into the FY – 15 budget cycle.
 - Horace Greeley Road Bridge plans and bid documents will be finalized in just a few months, Amherst's funding match was finalized with the passage of the 2011 bond warrant article.

Infrastructure Update Bridges

New Initiatives

- Fund through Capital Reserve, the repair of the new Boston Road bridge (to bring that to closure). Estimated cost, \$55,000.
- Fund through Capital Reserve, the town's estimated 20% of the Mont Vernon Road and Thornton Ferry Road I bridges estimated a \$386,000.

Infrastructure Update Bridges

DPW Recommends

- By Warrant Article in FY-16, add \$150,000 to the Bridge Capital Reserve.
- By Warrant Article in FY-17, add \$150,000 to the Bridge Capital Reserve.
- By Warrant Article in FY-18, add \$150,000 to the Bridge Capital Reserve.
- By Warrant Article in FY-19 add \$150,000 to the Bridge Capital Reserve

Town of Amherst DPW Strategic Update

Sidewalks

Infrastructure update sidewalks

 Strategic Goal: Continue reconstruction sidewalks as part of our road reconstruction program and vigorously pursue all grant opportunities.

With support of the Safe Routes to School Committee (one of their two recommendations) and approval from the Board of Selectmen, Historic District, and many area residents, DPW made application for a grant through TAP for a sidewalk covering the following roads.

Jones Road (2,200'),

A portion of Mack Hill Road (1,580')

A portion of Manchester Road (600)

A portion of New Boston Road (485') and

A portion of Boston Post Road (350')

The proposed 5,215 feet of new sidewalk is a very popular walking loop that includes the center of town. The grant application requires BOS support, passage of a gross budget warrant article, if selected the town would be reimbursed 80% of project costs at completion.

If Amherst is not selected for grant funding, this project does not move forward, if voters do not approve the project funding, this project does not move forward.

Infrastructure Update Sidewalks

- As a stand alone program, the Federal Government eliminated grand funding for "Safe Routes to School" projects.
- Sidewalks grants were folded into the Transportation Alternative Program (TAP).
- TAP has a \$200,000 minimum Threshold.
- Unfortunately, preliminary estimates for the Safe Routes to School Committee's #1 recommendation (Boston Post @ Cross) falls well below this grant program
- This Safety orientated goal, must be promoted by both the BOS and School Board and funded by warrant (or Sidewalk Capital Reserve) with town and school tax dollars.

Infrastructure Update Sidewalks

DPW Recommends

- In FY-16, A warrant Article in FY-16 @ \$328,100 to frontload the cost of the (Mack Hill / Jones Road) sidewalk project.
- In FY-17, Establish a \$45,000 Sidewalk Capital Reserve account with Board of Selectmen having authority to spend.
- In FY-18 add \$45,000 to the Sidewalk Capital Reserve account previously established

Town of Amherst DPW Strategic Update

Town Buildings

Town Building Improvements Capital Repairs

CIP project requests were submitted for the following projects:

Last Phase of Town Hall renovations – FY-17 estimated at \$93,000 (Warrant Article and part of our CIP)

- Restore eleven 12 over 12 style, fourteen 6 over 6 style, five 2 over 2 style, and the 7 lite fan transom windows over front door
- Analyze, clean, and point the various versions of brick
- Scrape, prime, and paint the wooden clapboards addition, and remaining woodwork (doors & trim)

Safety Complex, - Driveway/Parking area – FY-18 estimated at \$156,710 (Warrant Article and part of our CIP)

- Remove by milling the existing asphalt,
- add two new catch basins and connecting culvert pipes for drainage,
- repave

New Public Works Garage – Year to be determined, estimated at \$5,536,600

Continuous roof over Transfer Station sorting tables and walkway deck – Year to be determined, estimated at \$70,000

Town Building Improvements Capital Repairs

Strategic goal

Continue managing basic building maintenance in conjunction with capital repairs.

DPW Recommends

- Continue the initiative previously established and increase above in FY-16 from \$120,000 to \$125,000
- FY-17, \$93,000 warrant article (CIP & Heritage Commission supported) Town Hall repair warrant article
- FY-18 Safety Complex, Driveway parking area \$156.710
- FY-18 Established "Town Building Capital Reserve" and seed it with \$50,000

Town of Amherst DPW Strategic Update

Transfer Station

Solid Waste update

Strategic Initiative

- Demolition scale (initiative #1)
 - Approved by voters, to be bid late winter
 - Construction scheduled for spring 2015

Solid Waste

Strategic Initiates 2-6

- Increase hours to include more fulltime employees
 - At \$10-\$12 per hour without benefits we have difficulties drawing and holding help.
- Increase drop off time by an additional eight hours
- Create supervisory role within existing staff
- Have necessary staff to meet EPA water sampling and NHDES requirements.
- Construct a continuous truss roof length of desk.
- DPW Recommends
 - Increasing the FY-16 wage and benefit line by \$46,762.64

Town of Amherst DPW Strategic Update

Baboosic Lake Septic
as it integrates with
EPA Stormwater mandates

Baboosic Lake Water Quality Conditions

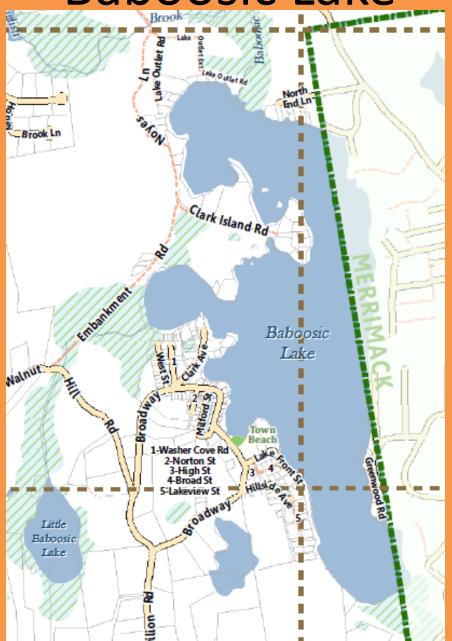

- Section 303(d) of EPA's Clean Water Act requires states to determine the Total Maximum Daily Loads (TMDL's) for impaired water bodies.
- Baboosic Lakes impairments include:
 - Chlorophyll A
 - Cyanobacteria hepatotoxic
 - Escherichia coli
 - PH
 - Phosphorus
 - Excess Algal growth

Amherst

On-site Wastewater Management Program

Baboosic Lake Additional Septic Phases

- More septic phases will
 - Benefit users
 - Benefit lake water quality
 - Go a long ways towards satisfying federal Stormwater requirements
- The next EPA mandated Stormwater requirements will
 - Require the town to meet new TMDL standards
 - Additional septic phases will go a long ways towards meeting those standards.

Baboosic Lake Additional Septic Phases

- Funding, opportunities
 - Watershed grant (restricted to only along waters edge).
 - Clean Water State Revolving Fund (CWSRF) a grant/loan
- Strategic Goal
 - Continue our partnership with residents around the lake and offer a way to manage existing cesspools, holding tanks, and quality of life.
- New Strategic Goal
 - Aggressively pursue funding for additional septic phases

Baboosic Lake Additional Septic Phases

<u>DPW Recommends</u>

- Create a half time engineering position with Septic and Stormwater background.
 - FY-16 wage an benefit budget impact, \$43,633.95

Stormwater

Stormwater update

- After a four year delay, EPA has issued its Ma. draft permit to a three month public comment.
 - This is important to NH because these census driven requirements will be very similar.

 As drafted, to meet the six minimum control measures depending on the size of the community, EPA estimates an annual budget range between \$78,000 and \$829,000

Stormwater update

Strategic Goal

Create a halftime position for Stormwater management

<u>DPW Recommends</u>

- In FY-16, combining/sharing this halftime Engineering position with the Baboosic Lake Septic recommendation
- Starting in FY-17 and continuing annually through FY-20 increasing the Stormwater Project line by \$20,000

Staff

Strategic Goal

To adequately staff DPW to meet community expectations.

<u>DPW Recommends</u>

- In FY-16 returning the Part-Time Secretary position to 20 hours \$9,042.80
- In FY-16 allocate \$40,000 to perform an independent study of Public Works functions.
