

**Amherst PFOA Update Meeting –  
Tuesday, May 2, 2017  
7:00 pm at Souhegan High School,  
412 Boston Post Road, Amherst**

Pennichuck Corporation ("Pennichuck") has been engaged by Textiles Coated International, Inc. (TCI), at the request of the New Hampshire Department of Environmental Services, to prepare the design of a water main extension that would provide public water to 110 properties in Amherst that have been impacted by PFOA contamination.

The purpose of this meeting is to provide homeowners with the essential information regarding this design project, as well as for Pennichuck to schedule individual property inspection appointments. **Booking these appointments is essential to completing this project in a timely manner**, to the ultimate benefit of affected residents.

If you cannot attend this meeting please call Pennichuck's Customer Service department to schedule the inspection of your property at 800-553-5191.
