Old Manchester Rd. Informational Meeting

RE: Advisory Shoulders

Dear Old Manchester Road Resident,

Please join us for a meeting regarding the planned advisory shoulders on Old Manchester Rd. on Monday, April 18th, at 6pm, in the Barbara Landry meeting room at Town Hall. Residents will also be able to participate via zoom. The zoom link may be found in the calendar on the Town Website listed under the event.

Last Fall we held an informational meeting with residents of the Old Manchester Rd. neighborhood to discuss our proposal to install “advisory shoulders” on Old Manchester Rd. The purpose of the advisory shoulders is to provide safer accommodations for pedestrians using Old Manchester Rd. to include walking, running, biking, etc. Our proposal was well received. At that time, we discussed that we would have another meeting in the spring after folks have had a chance to reflect on this idea over the winter.

We look forward to your participation at this meeting and will be prepared to answer any questions that you may have. If you have any questions regarding the meeting, please feel free to call the DPW office at 603-673-2317.

Sincerely,

Eric M. Slosek
Interim Director
Amherst Public Works
