

# **TOWN OF AMHERST, NH**

## **Energy Committee**

### **NOTICE OF PUBLIC HEARINGS**

**The Johnson Meeting Room  
Amherst Town Library  
14 Main Street  
Tuesday December 5 at 6:00 PM, and  
Wednesday December 6 at 6:30 PM**

Pursuant to NH RSA 53-E, the Amherst Energy Committee, which has been designated by the Board of Selectmen as the town's Energy Aggregation Committee, is holding public hearings on a proposed Community Power Plan. There will be a brief presentation about Community Power in Amherst followed by an opportunity to ask questions and make comments about the plan and program. The draft Community Power Plan is available on the town website, [amherstnh.gov](http://amherstnh.gov), under the Energy Committee tab.

### **Amherst Community Power Plan**

The Town of Amherst has developed a Community Power Plan (the "Plan") which outlines how Amherst's Community Power Program will work. Amherst's Community Power Program is designed to offer competitive choices to Amherst's electric consumers as an alternative to the default energy service provided by the town's electric utility company, Eversource.

Under the Plan, consumers would be able to opt-out of the Community Power Program and select Eversource as their default energy service provider, or may choose their power supply from another competitive supplier, at any time before or following enrollment in the Community Power Program, without fees or penalties. There is no cost to the Town to establish or operate the Community Power Program.

Adoption of this Plan is subject to final approval of the Energy Committee and adoption by the Board of Selectmen. If adopted by the Board, an article will be placed on the March 2024 Warrant for approval of the Plan by a majority of those voting.

All citizens are invited to attend.
