To amend the Town of Amherst NH Zoning Ordinance, Article III, Section 3.11 Scenic Setbacks and Minimum Lot Frontage on Scenic Roads.

A. PURPOSE. The purpose of this section is to preserve and enhance the rural, open character of the Town as viewed from the main roads leading through the Town and scenic roads within the Town and to prevent unsightly development along these routes. *This purpose can be complemented by encouraging natural vegetation and wildlife habitats in the setback to increase the rural experience of viewing beautiful natural surroundings while travelling on scenic roads and Town roads with scenic setbacks. Further preservation of rural character and open space can be accomplished through establishment of scenic road minimum lot frontage requirements which additionally benefits highly rated wildlife habitat and wildlife corridors on scenic roads in Amherst. (3-14-23)*

B. REGULATIONS. To accomplish the purpose of this section, a setback requirement for all structures of one hundred (100) feet from the highway right-of-way is established on the following roads, and said setbacks shall apply notwithstanding any other setback requirements which may be applicable as a result of other zone regulations: (3-2-76, 3-14-23)

RSA 231:158 states that as part of a scenic road designation or as an amendment to such a designation adopted in the same manner, a town may impose provisions with respect to such a road which are different from or in addition to those set forth in this section. Relative to RSA 231:158 this additional provision encourages best practices for preservation of existing trees, natural vegetation, and stone walls along scenic roads.

Each new lot on a scenic road shall have a minimum frontage of three hundred (300) feet on a publicly maintained road, unless frontage has been approved and recorded as a reduced frontage lot. Corner lots on scenic roads shall have the minimum required frontage on each side of the lot that abuts a street or road.
