

The State of New Hampshire
Department of Environmental Services

Robert R. Scott, Commissioner

FINDING OF NO SIGNIFICANT IMPACT

To All Interested Parties:

Pursuant to the rules of the New Hampshire Department of Environmental Services, a Finding of No Significant Impact is issued this day to the:

TOWN OF AMHERST
AMHERST, NH

This finding is issued as a result of an environmental review conducted by the New Hampshire Department of Environmental Services, Water Division, for a drinking water main extension project from the Pennichuck Water Works community water system (PWS# 1621010) in Amherst, NH. The project is the "2022 Amherst PFOA Water Main Extension".

The attached document provides background information and details which support this finding.

Project records are on file and available for public review at the New Hampshire Department of Environmental Services and in the project community at the address indicated on the attached document.

Robert R. Scott
Commissioner
